Website

Goal: Help people find you and your resources easily. If someone is looking for funding for a project or event, they will find your website easier if you have examples. Think of it as a matching game. If they type in “funding for signage” and your website has a project example that says “New sign funded by local Community Foundation,” Google will say, “Aha, a match!” and send it their way.

Recent Projects

LACF was thrilled to partner with other organizations in supporting these and other projects in 2018.

History Alive!

In 2018, the Lanesboro Area Community Foundation awarded a grant to History Alive! Lanesboro to cover the costs of six World War I uniforms for actors who represented Lanesboro area soldiers in the Great War.

The History Alive! performances were very well received and those who attended learned a great deal about the soldiers and also about the town of Lanesboro and it's residents at the time.

P.L.A.Y.Y.

In 2018, LACF provided grant funds to support Play in Lanesboro: Activities for the Young & Young at Heart (P.L.A.Y.Y.) P.L.A.Y.Y. is an intergenerational playgroup that is open to the public free of charge. Community members of all ages and abilities gather in the Lanesboro Community Center gym every Wednesday for two hours. P.L.A.Y.Y. has brought all ages together to enjoy fun activities bringing the community together.

Electronic Sign

In 2018, The Lanesboro Area Community Foundation collaborated with several other organizations in support of an Electronic Information Sign which was placed in close proximity to the school.

The electronic sign is intended to bring the community closer together by improving communication.

Tips:

- Include one to two examples of each project type or event you support.
- Twice a year, request website updates to add new board members and recent projects using this form: smifoundation.org/community-foundation-website-updates/
